Construction to Begin on Route 616 Bridge over Centerville Creek
Bridge to be replaced as part of Public-Private Partnership

Harrisburg, PA – Construction for the Route 616 (Seven Valleys Road) bridge, spanning Centerville Creek in Shewsbury Township, York County, is scheduled to begin on Thursday, June 21 as part of the Pennsylvania Department of Transportation's (PennDOT) Rapid Bridge Replacement Project.

When the bridge closes for full replacement, drivers will be directed to follow a detour along Route 216 (Glen Rock Road), Church Road (Route 3018), and Larue Road (Route 3016). The bridge is anticipated to be complete in September.

In the event of unfavorable weather or unforeseen activities, this schedule may change.

This bridge is referred to as JV-299 and is one out of the 558 bridges being replaced under the Rapid Bridge Replacement Project. JV references the joint-venture partnership between Walsh/Granite, which is leading construction for the entire project.

The Rapid Bridge Replacement Project is a public-private partnership (P3) between PennDOT and Plenary Walsh Keystone Partners (PWKP), under which PWKP will finance, design, replace, and maintain the bridges for 25 years. The P3 approach will allow PennDOT to replace the bridges more quickly while achieving significant savings and minimizing impact on motorists.

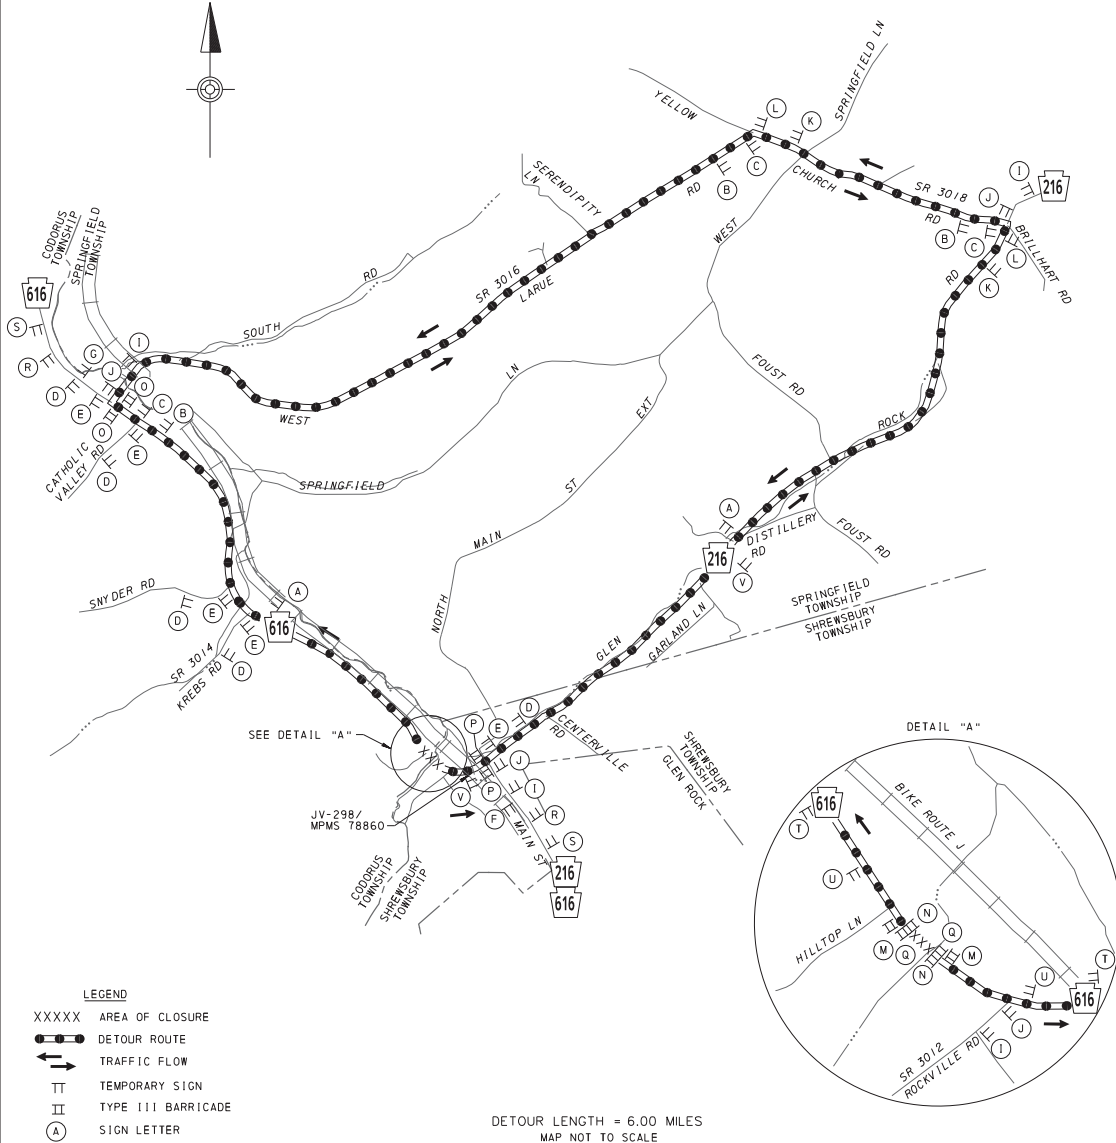

To see the bridges included in the statewide initiative and to learn more about the Rapid Bridge Replacement Project, visit www.parapidbridges.com. Additional information on P3 programs in Pennsylvania can be found at www.p3forpa.pa.gov or by calling the project hotline at 877-444-9990 or email info@parapidbridges.com.
