

**SHREWSBURY TOWNSHIP
YORK COUNTY, PENNSYLVANIA**

RESOLUTION 2022-05

**A RESOLUTION OF THE TOWNSHIP OF SHREWSBURY, YORK COUNTY,
PENNSYLVANIA, SETTING CERTAIN FEES**

WHEREAS, Shrewsbury Township has duly enacted certain Ordinances, including among others, a Zoning Ordinance, a Building Permit Ordinance, a Subdivision and Land Development Ordinance; and,

WHEREAS, pursuant to the Ordinances, the Board of Supervisors may, from time to time, establish certain fees by Resolution; and,

WHEREAS, in accordance with the provisions of said Ordinances, the Township desires to adopt a fee schedule by Resolution; and,

WHEREAS, it is the desire of the Shrewsbury Township Board of Supervisors to restate and amend the 2021 Fee Schedule, approved January 4, 2021 (Resolution No. 2021-05); and,

WHEREAS, the Board of Supervisors believe that the Fee Schedule would be in the best interest of the citizens of Shrewsbury Township.

NOW, THEREFORE, BE IT RESOLVED, and it is hereby resolved as follows:

Conserving Natural Resources for Our Future

YCCD EROSION & SEDIMENT POLLUTION CONTROL (E&SPC) PROGRAM SERVICES FEE SCHEDULE, RULES, & GUIDELINES

**Adopted by the YCCD Board of Directors on December 14, 2018
Effective January 1, 2019.**

- I. **Authority** – The York County Conservation District (hereinafter referred to as "District") has entered into a delegation agreement with the Pennsylvania Department of Environmental Protection (DEP) to administer the Commonwealth's Erosion and Sediment Pollution Control Program and the National Pollutant Discharge Elimination System (hereinafter referred to as NPDES) permitting program for the discharge of stormwater associated with construction activities under the Pennsylvania Clean Streams Law, Chapter 102 Erosion & Sediment Control and Stormwater Management regulations, and Chapter 92. The Conservation District Law (Section 9 of Act 217) provides the District with the ability to accept the responsibility to administer the erosion and sediment pollution control program and to collect fees for services performed.
- II. **Applicability** - The District Services Fee shall apply to all plans submitted to the York County Conservation District requesting District review and approval. District services include attending pre-application meetings, completing technical E&S plan reviews; completing initial, routine, and final inspections where voluntary compliance is being obtained; attending site meetings; investigating complaints; attending preconstruction meetings; conducting educational programs; and providing administrative support. The District service fee does not cover the District's costs incurred in taking an enforcement action or conducting follow-up inspections where continuing non-compliance necessitates an enforcement action.

III. District Service Fees -

A. The following is the District's fee for various earth disturbance activities and the review of manure management plans:

1) Single Family Residential Unit (< 1 acre of earth disturbance) not associated with a larger common plan of development

1 unit	= \$ 200 Fee
--------	--------------

2) All Other Land Development Activities (includes but is not limited to residential, commercial, industrial, agricultural buildings/structures, highway, and utility line projects)

0.1 - 1 acres	= \$ 1,050 Fee
2 - 5 acres	= \$ 1,050 + (\$315/acre)
6 - 25 acres	= \$ 2,100 + (\$210/acre)
26 -100 acres	= \$ 6,300 + (\$105/acre)
101 + acres	= \$ 12,600 + (\$65/acre)

- Fee is based on the total disturbed acreage rounded to the nearest whole acre.
- In addition to the above disturbed acre fee an additional fee of \$400 per stream or wetland crossing for linear projects (ex. underground utility and transmission lines, overhead utilities, and highway projects) is required.

3) PA Turnpike Commission Projects

- \$100 per disturbed acre

4) Timber Harvest Operations

- \$200 for projects completing a DEP Professional Timber Harvesters Action Packet or other E&S plan.

5) Chapter 105 Water Obstruction & Encroachment General Permits (GPs)

- \$200 for stand-alone projects (ex. bridge/culvert replacements) with less than 1 acre of earth disturbance. Where the permitted activity is associated with a larger common plan of land development, timber harvest operation, spoil & borrow site or clearing & grubbing site the fee for the overall project shall apply.

6) Stream Restoration Projects

- \$350 fee for stand-alone projects.
- Stream restoration projects are defined as "*Projects that convert an unstable, altered, or degraded stream corridor, including adjacent riparian zone and flood-prone areas to a stable condition considering recent and future watershed conditions. This includes restoring: 1) a stable dimension, pattern, and profile, 2) biological and chemical integrity, and 3) the ability to transport water and sediment in a dynamic equilibrium.*" (Source: Guidelines for Natural Stream Channel Design for Pennsylvania Waterways" Keystone Stream Team – March 2007)

7) Green Infrastructure Projects

- \$350 Fee (< 1 acre of earth disturbance) where:
 - a) The primary scope and purpose of the project is to protect, maintain, reclaim and restore water quality to receiving surface waters by managing stormwater through the use of green infrastructure. Green infrastructure uses natural hydrologic features - vegetation, soil, and natural processes - to manage water and create healthier urban environments (<http://water.epa.gov/infrastructure/greeninfrastructure>).
 - and
 - b) The project is a stand-alone project independent of any new residential, commercial, industrial, or other construction activity (ex. residential or commercial subdivisions, roadway and utility line projects).
- For green infrastructure projects requiring a NPDES Permit the Fee for District Services is waived however the NPDES permit filing fee and the \$100 per disturbed acre NPDES fee still apply.

Examples of green infrastructure include but are not limited to:

- Retrofitting existing conventional stormwater detention basins to improve ground water recharge and water quality
- Converting an *existing* impervious parking lot to pervious pavement or concrete
- Installation of rain gardens or bioretention areas
- Wetland creation/restoration (does not include wetland mitigation/replacement projects)
- Dam removals
- Riparian buffer installation and maintenance
- Tree planting and reforestation
- Replacing *existing* storm sewer pipe or gully erosion with stable vegetated swales

8) Spoil & Borrow Sites

- \$200 for spoil and borrow sites involving earth disturbance of 5,000 square feet to less than 1 acre.

9) Clearing & Grubbing (not associated with preparing a site for future land development activities)

- \$200 for sites involving earth disturbance of 5,000 sq. feet or more.

10) Complaint Investigations

- Upon receipt of a complaint, the District will charge the District service fee when earth disturbance activities are found to be in violation of Chapter 102 and when a required written E&S plan has not been developed (or) the required E&S plan does not meet the requirements of Chapter 102. Chapter 102.4(b) (9) authorizes the District to require submittal, review, and approval of E&S plans upon complaint or site inspection to ensure compliance with Chapter 102. For complaints involving earth disturbance activities that do not fit into any of the categories in Section III.A, a \$200 District service fee will be charged.
- Upon receipt of a complaint, the District will charge the District service fee when agricultural operations are found to be in violation of Chapter 91 and when a required manure management plan has not been developed (or) the required manure management plan does not meet the requirements of Chapter 91.

11) Agricultural E&S (Conservation) Plans

- \$200 Base Fee + \$25 per additional tract
- Plan review and approval will be charged as a base fee (covers the first "tract") plus \$25 for every additional "tract" referenced for review and approval. A "tract" shall be in accordance with the local USDA agency when available. In the absence of USDA tract numbers, a "tract" will be considered by a property tax parcel number

12) Manure Management Plans

- \$200 Base Fee

B. Additional District Service Fees

- 1) 25% of the original District service fee is required for all second submissions, 50% of the original District service fee is required for all third submissions, and the original District service fee is required for all submissions thereafter until the E&S plan meets the requirements of Chapter 102. The District strongly encourages that the plan preparer, landowner/developer, and the operator(s) attend an on-site pre-application meeting with the District. The District also provides a recommended standard plan format on our website (www.yorkccd.org) to assist plan preparers in submitting quality plans during the first plan submission.
- 2) 25% of the original District service fee is required for E&S plans which are resubmitted with major revisions to the previously approved E&S plans that are located within the previously approved limits of disturbance. Major revisions include, but are not limited to, major revisions to the lot and/or street layout, storm water management design, or hydraulic E&S BMPs requiring review of design calculations.
- 3) A new District service fee is required for any revised E&S plans that propose additional earth disturbance outside the previously approved limits of disturbance or NPDES permit boundary. The new District service fee is required only for the increased area of earth disturbance or the increase in residential units per Section III (A).
- 4) A District Service Fee of \$75 for completing a PA Natural Diversity Inventory (PNDI) search and providing an Environmental Review Receipt to the applicant.

C. Waivers of District Services Fee

The District services fee is waived for the following:

- 1) All projects submitted with Penn DOT as the applicant however the District encourages PennDOT to pay a reasonable fee to cover the costs of District services provided.
- 2) Existing District Cooperators
 - a) Agricultural E&S (Conservation) plans prepared by the District or Natural Resource Conservation Service (NRCS)
 - b) Headwaters Environmental Legacy Program (HELP-Streams) Projects
- 3) Resubmission of previously approved E&S plans with only minor revisions that do not affect the adequacy of the previously approved E&S Best Management Practices (BMPs) or minor field modifications that require minimal to no review of BMP design calculations and construction details.

IV. NPDES and E&S Permit Fees

A. NPDES and E&S Permit fees are as follows:

Permit Type	Administrative Filing Fee	Disturbed Acre Fee
NPDES General Permit	\$500.00	\$100/ Disturbed Acre *
NPDES Individual Permit	\$1,500.00	\$100/ Disturbed Acre *
E&S Permit	See DEP permit application	See DEP permit application
Disturbed Acres – Round to the nearest whole acre		

All earth disturbance sites which require an NPDES or E&S permit must submit **two separate checks** with the application for District services. The appropriate permit filing fee shall be in the form of check or money order made payable to "York County Conservation District Clean Water Fund" and the required per disturbed acre fee shall be in the form of check or money order made payable to "Commonwealth of Pennsylvania Clean Water Fund".

* The \$100 per disturbed acre fee is a one-time fee and will not be re-charged for NPDES permit renewals and for resubmittal of previously withdrawn NPDES applications for which the \$100 per disturbed acre fee had been previously paid.

B. Phased NPDES Projects

- 1) The disturbed acre fee is required at the time each individual phase is submitted for District review. The initial administrative filing fee is a one-time fee paid at the time of the initial submission and is not required for submittal of future phases.

C. NPDES Permit Renewal Fees

Permit renewal fees (which includes the permit filing fee and the disturbed acre fee) are required for all existing and future areas to be disturbed within the existing approved phase(s). An additional disturbed acre fee is required at the time each future phase is submitted for District review.

D. Waiver of NPDES Permit Fees

NPDES permit fees are waived for the following:

- 1) All projects submitted with PennDOT as the applicant.

V. Administration

A. Rules & Guidelines

- 1) An erosion and sediment control (E&S) plan for a non-NPDES permitted project will be considered complete when the District receives complete E&S plan drawings, narrative, a completed Application for District Services, and a check or money order made payable to the "York County Conservation District" in the amount of the required District services fee. Only one complete and folded set of E&S plans will be accepted.
- 2) A NPDES or E&S permit application will be considered complete when all items on the Notice of Intent checklist have been received, and a completed Application for District Services, and check or money order made payable to the "York County Conservation District" in the amount of the required District services fee has been received. Only one complete and folded set of E&S plans will be accepted.
- 3) The District reviews E&S plans and NPDES applications in the order that they are received (i.e. first come, first serve basis).
- 4) The District will review the E&S plans solely to determine whether it is adequate to satisfy the requirements of Chapter 102. By a determination that the plan is adequate to meet those requirements, neither the District nor the County assume responsibility for the plan implementation or the proper construction and operation of the facilities contained in the plan. The design, structural integrity, and installation of the E&S Best Management Practices (BMPs) are the responsibility of the landowner and/or operator. Before any earth disturbance commences, the appropriate local, state, and federal permits and approvals must be obtained from the agency having specific permitting authority.
- 5) The District has not been delegated authority to complete technical or engineering reviews of PCSM plans. The design, structural integrity and installation of the PCSM BMPs set forth in the PCSM plan are the responsibility of the plan preparer, landowner, and operator.
- 6) District approval letters are valid for the duration of the project construction if no changes are made to the approved E&S plans.
- 7) For projects that have not commenced earth disturbance activities, the E&S plan approval expires 5 years from the date of the District's approval letter.
- 8) Each submission of a different project (i.e. change in land use) on the same parcel of land shall be considered a new project subject to a new District service fee.
- 9) For phased projects, an Application for District Services and Fee is required at the time each individual phase is submitted for District review.

B. Plan Review Timeframes - NPDES completeness reviews and E&S technical plan reviews will be completed within the timeframes allotted by the District's delegation agreement with the PA DEP as follows:

- 1) Completeness reviews will be completed within 15 business days of receiving the Notice of Intent (NOI) package for all NPDES permits.
- 2) Initial technical E&S plan reviews for General NPDES permits will be completed within 22 business days of the completeness letter date. Total processing time for a general NPDES permit *without deficiencies* is 71 business days.
- 3) Initial technical E&S plan reviews for Individual NPDES permits will be completed within 47 business days of the completeness letter date. Total processing time for an individual NPDES permit *without deficiencies* is 107 business days.
- 4) Technical plan reviews for all revised E&S plans for General NPDES permits will be reviewed within 17 business days of the complete re-submittal date.
- 5) E&S plans for non-NPDES-permitted projects will be reviewed within 30 calendar days of receiving a complete submittal.

C. Withdrawal of Projects - Requests for withdrawal of E&S plans and refund of the District service fee shall be submitted in writing with the reason(s) for withdrawal. The following applies to the withdrawal of plans:

- 1) Decisions on refunds will be made on a case-by-case basis.
- 2) The NPDES permit fee is non-refundable.
- 3) A minimum \$150 processing fee will be imposed for refunds granted.
- 4) If the plan review has begun or if earth disturbance activities have commenced, the request for refund of the District service fee may be denied. An appeal of the decision may be made in writing to the attention of the District Board Chairman.
- 5) NPDES permit applications not resubmitted within 60 calendar days will be considered withdrawn in accordance with Chapter 102.6(c) (2) & (3) unless the applicant provides a written request for a specific extension prior to the 60 calendar days lapsing.
- 6) An E&S plan (for non-NPDES permitted projects) resubmitted more than one (1) year after the date of the District's last technical deficiency letter will be considered withdrawn unless the applicant provides a written request for a specific extension prior to the 1 year lapsing. A new application for District services and fee will be required prior to future resubmission.

OPEN RECORDS POLICY

The purpose of this policy is to provide guidelines that conform to the requirements of Act 3 of 2008 commonly known as the "Open Records Law," which fundamentally changes the "Right to Know Law".

I. GENERAL

- A. All documents deemed public records shall be available for inspection, duplication, and retrieval at the Shrewsbury Township Administrative Building, 11505 Susquehanna Trail South, Glen Rock, PA 17327, during established business hours, excluding weekends and recognized holidays.
- B. The Township's Open Records Officer, as designated by the Township and pursuant to the Act, will be responsible for receiving, tracking, and responding to Open Records requests. In the absence or unavailability of the Open Records Officer, another employee of the Township may act as the Deputy Open Records Officer.

II. REQUESTS

- A. All Open Records Requests for the Township are to be addressed to the Open Records Officer, and may be submitted in person, by mail, by facsimile, or email. Written requests shall be addressed to Shrewsbury Township Open Records Officer, 11505 Susquehanna Trail South, Glen Rock, PA, 17327. The applicable facsimile number for requests is (717)227-0662. The email address for requests is manager@shrewsburytownship.org.
- B. Shrewsbury Township will not respond to oral or anonymous requests.
- C. Each written request shall include the name of the Requester and the address to which the Township should address its response. The request should also identify or describe the records sought with sufficient specificity to enable the township to ascertain which records are being requested.
 - 1. The request may be submitted using the Open Records Request Form provided by the Township, and may be obtained at the Township Office or on the Township website (www.shrewsburytownship.org).
 - 2. The Requester must be a resident of the United States. In determining whether the Requester meets this requirement, the applicable Open Records Officer may, in his or her discretion, require that the Requester produce photographic identification such as a driver's license, showing an address.
- D. Upon receiving a written Open Records Request, the applicable Open Records Officer will:
 - 1. Date-stamp the request.
 - 2. Assign a tracking number to the request.
 - 3. Compute and make a notation of the date by which a response must be provided.
 - a) Shrewsbury Township will make a good faith effort to determine if the requested record is a public record and respond as promptly as possible under the circumstances existing at the time of the request and that this time

EXHIBIT "8"

shall not exceed five (5) business days from the date the written request is received by the applicable Open Records Officer.

- b) The first day of the five (5) business day period will be the Township's next business day after receipt of the request.
4. If the Open Records Officer fails to respond within the five (5) business day period with either an interim or final response, the Open Records request is deemed denied.
5. Make a duplication of the request including all documents submitted and the envelope (if any) in which it came.
6. Create an official file for the retention of the original request.
7. Record the request in a system used by the Township for tracking Open Records requests.

III. RESPONSE

- A. Physical access provided to a Requester of a document or a copy of a requested document will be considered a "response" to an Open Records request. The Open Records Officer will provide authorization for such access.
 1. Public records of the Township will be accessible for inspection by a Requester during the regular business hours of the Township, excluding weekends and recognized holidays.
 2. The Township is not required and will not create a public record that does not already exist, nor is the Township required to compile, maintain, format, or organize a public record in a manner in which the Township does not currently do so.
 3. In compliance with the Open Record Law's redaction requirements, the Township is not required to alter their original records.
 4. In order to prevent the Requester from having access to information to which they are not entitled, the Township will redact or eradicate a portion of a document while retaining the remainder for review.
 5. The Township does not make duplication equipment available to a Requester, but does provide for Township staff to make copies or may contract for duplication services and require that the Requester pay the contract for those services. In both instances, the Township may charge a reasonable fee that is consistent with prevailing charges for duplication.
 6. Failure by the Requester to retrieve requested documents within sixty (60) days of first notification will result in the disposal of said documents and the retention of any fees paid.
- B. Where timely access is not provided as listed in A.1 above or otherwise requested, the Township is required to provide a response in writing. The Open Records Officer has the duty to prepare and send written responses and may consult, as necessary, with the Solicitor and other Township Officials, Township employees, and Third-Party consultants having a concern or interest in the records.
- C. The applicable Open Records Officer shall send written response to Requesters by U.S. mail and, at its discretion, may also use the following means: facsimile transmission, email, overnight, parcel delivery service, or courier delivery.

EXHIBIT "8"

- D. The Act provides circumstances in which the Township can obtain an extension of time in which to provide a final response to a request. The Township must provide the Requester with written notice that additional time will be required. This notice is referred to as an "interim response".
 - 1. Single extensions of time may not exceed thirty (30) calendar days. Notification to a Requester by the applicable Open Records Officer that it needs more than the maximum thirty (30) calendar days, acts as a deemed denial.
 - 2. If an extension is invoked and then there is no timely final response, the Open Records request is deemed denied.
- E. Written Final Responses may be one of three (3) types:
 - 1. The Township grants the entire request.
 - 2. The Township refuses the entire request.
 - 3. The Township grants part of the request and refuses the remainder.
- F. Final responses that deny requests in whole or in part will list all of the specific reasons relied on by the Township for denying the request and will include one or more citations of support authority. The response shall also contain a notice informing the name and mailing address of the Open Records appeal Office.
- G. Inaction by the Township is not a response even when it results in deemed denial.

IV. APPEALS

- A. If a written request for access to records is denied in whole or in part or deemed denied, the Requester may file an appeal with the Office of Open Records within fifteen (15) business days of the mailing date of the Township's Open Records Officer's response or within fifteen (15) days of a deemed denial.
- B. The appeal should state the grounds upon which the Requester asserts that the record is a public record, legislative record or financial record and shall address any grounds stated by the Township's Open Records Officer for delaying or denying the request.
- C. The Office of Open Records will appoint appeals officers, and adopt appeal procedures. Requester should contact the Office of Open Records, Commonwealth Keystone Building, 400 North Street – 4th Floor, Plaza Level, Harrisburg, PA 17120-0225. The Office of Open Records may also be contacted via facsimile to 717-425-5343 or via email to openrecords@pa.gov as a Microsoft Word or PDF attachment.
- D. Where the Office of Open Record's final determination upholds the refusal of access to a document, the Requester may, within thirty (30) calendar days of the mailing date of that final determination, file a Petition for Review in Commonwealth Court.
- E. Either party may file a Petition of Review of the written decision of the Appeals Officer within thirty (30) days of the mailing date of the written decision with the York County Court of Common Pleas.
- F. Additional Open Records information can be found on Office of Open Records website at <http://openrecords.state.pa.us>

EXHIBIT "8"

V. FEES

- A. The Township will not charge for redaction services.
- B. A "photocopy" is either a single-sided copy or one side of a double-sided black-and-white copy of a standard 8.5" x 11" page.
- C. A duplicating fee for photocopying, printing from electronic media, or microfilm will be imposed at 25 cents per page, per side.
- D. A duplicating fee for copying onto electronic media will be imposed at 50 cents per compact disk. A new disk will be used each time records are provided.
- E. Fees for facsimile transmissions will be imposed the actual cost to send the transmission.
- F. Scanned documents sent electronically will be imposed a fee at 25 cents per page, only if a document must first be converted into a copy format in order to scan into an electronic format (i.e. a document requiring redaction before scanning).
- G. For other means of duplication and other costs incurred, reasonable fees based on prevailing fees for comparable duplication by local business entities or actual costs will be imposed.
- H. The Township may, in its discretion, insist that payment for duplication be made by certified check. If the fee is for copying only, the Township shall provide access to the records but shall refuse to make any copies until the fee is paid. If the fee is for service that is necessary in order for access to be provided, the Township shall deny access to the records until the fee is paid.
- I. The Township shall not be prohibited from exercising its discretion to waive collection of fees for documents to non-profit organizations and governmental agencies and authorities.
- J. The Township may require a requester to prepay an estimate of the fees, if the fees required to fulfill the request are expected to exceed \$100.
- K. The fee schedule for GIS documents, tax records, assessment records, and other records involving large datasets, as well as historical documents maintained by Township, may be different from that set forth in this policy.

VI. Retention and Disposal of Public Records

- A. The Open Records Law does not modify, rescind or supercede any statutes, regulations and other laws that regulate the Township's retention and disposal of records policy.

VII. Posting Record Requests

- A. The Township reserves the right to post and/or release record requests and responses thereto. Individuals and entities submitting records requests should have no expectation of privacy concerning requests.

EXHIBIT "8"

This policy supersedes any and all previously adopted Open Records Policies.

ADOPTED this 4th day of September, 2013.
