

PENNSYLVANIA SEWAGE FACILITIES PROGRAM
APPLICATION FOR SEWAGE INSPECTION

PART 1 – GENERAL INFORMATION

DATE _____

Name of Property Owner _____

Address of Property Owner _____

Telephone No. _____ Email _____

Site Address _____

Directions to Site _____

INSPECTION INFORMATION

During the inspection for Real Estate Transfer the property owners and/or agents of Real Estate Transfer must have septic tanks fully pumped out by a **licensed pumper who is registered with Shrewsbury Township**. Full access to the top of the septic tank must be made so that the large 20" diameter concrete lid can be opened for proper pumping and inspection of each tank. This requires digging down to the top of the tank ahead of the scheduled inspection. I understand the above information and will make sure that the septic tank(s) are fully accessible as described above just prior to the time of pump out and inspection so as to facilitate an expedient inspection.

SIGNATURE DATE

OWNERS DISCLOSURE OF SEPTIC HISTORY

1. **What type of Septic system do you have?** Cesspool Septic Tank & Drain Field
 Sand Mound or Elevated System Other – Describe _____
